Special Procedures Submission

Sir:

In accordance with the provisions of 37 C.F.R. § 1.78(a)(3), Applicants respectfully request acceptance of an unintentionally delayed claim for priority under 35 U.S.C. 120 of U.S. Patent Application No. 08/932,532, filed on September 17, 1997, which matured into U.S. Patent No. 6,418,324, which was pending at the time the present application was filed. The present application was filed on February 28, 2002, and U.S. Patent No. 6,418,324 issued on July 9, 2002.

During February 2004 while preparing a response to the outstanding Office Action, Applicants reviewed the prior art and claims to be included in the response. During this review, it came to the Applicants' attention that the present application should be a continuation-in-part of U.S. Patent Application No. 08/932,532, which is a continuation-in-part of U.S. Patent Application No. 08/456,860, instead of only related to this application,

P21585.A10

as disclosed in the originally filed application in paragraph [0002]. Applicants therefore immediately undertook action for filing this Petition to obtain the 35 U.S.C. §120 benefit of U.S. Patent Application No. 08/932,532 and its parent parent.

The entire delay from between the date the claim was due under 37 C.F.R. 1.78(a)(2) and the date the claim is being filed was unintentional.

Applicants have acted with diligence since determining that a priority claim would be appropriate. Applicants made this determination and have taken immediate steps to prepare and file this petition.

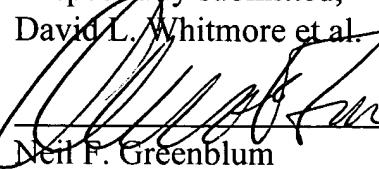

Applicants are concurrently filing an Application Data Sheet and an Amendment Under 37 C.F.R. 1.116 changing the specification to claim the benefit of then copending U.S. Patent Application No. 08/932,532 and its parent application. Copies of the Amendment and Application Data Sheet are enclosed.

A check including the surcharge under 37 C.F.R. 1.17(t) in the amount of \$1330.00 is submitted by applicants for the petition fee.

Authorization is hereby provided to charge any additional fees associated with this communication or credit any overpayment to Deposit Account No. 19-0089.

Respectfully submitted,
David L. Whitmore et al.
